描述

The screenshot shows the HISense system interface for the '滚动计划查询' (Rolling Plan Query) page. The page includes search filters for product line, product category, batch number, and customer code. A red box highlights the '评审通过时间' (Review Pass Time) filter, which is set to '2023-02-01'. The page also includes a table with columns for order number, batch number, customer code, customer name, customer grade, sales area, sales sub-area, business manager, sales assistant, export country, export model, base model, export method, quantity, expected shipping time, distribution shipping note, order mark, contract status, and agreement status.
